MEMORANDUM FOR

THE SECRETARY OF STATE

SUBJECT: Economic Assistance for India

The President has told Indian Foreign Minister Singh that \$20 million in additional economic assistance would be provided in US FY 1971 and that \$50 million would be provided in July to help alleviate the economic costs generated by the influx of refugees from East Pakistan.

The President has asked for a memo by June 24 which:

- describes possible means for providing an additional \$20 million from FY 1971 funds and the considerations involved in choosing among them;
- describes alternative ways of putting together a suitable \$50 million package from FY 1972 funds or from those in combination with some FY 1971 funds.
